Sahil Bondre

Runner Up, Dotslash Hackathon 3.0 (2020): Made a chrome extension for extracting relevant content from websites and save as pdf with Aemie Jariwala.

Aemie Jariwala

World rank 2 AIR 1 March 2021 Codechef Lunchtime Div 3

3rd Place, Dotslash Hackathon 4.0 (2021): Made a low-bandwidth, real time proctoring tool for online exams with Aemie Jariwala.

We have successfully developed a geo-tracking system for Lakhipur, Cachar District, Assam Police. We built a mobile app to track police officers' patrolling activity and a web app for the control room to get real-time updates and trajectories of all the patrolling officers.

Hackathon

ASEAN-INDIA hackathon winner(2021)

Winner of ASEAN-INDIA hackathon organized by AICTE(All India Council for Technical Education) in association with Ministry of Education India, in collaboration with 10 other ASEAN countries for the problem statement "Marine litter quantification", we made a flutter application in which user can click the photos of sea-shores and our deep learning algorithms will predict the type of trash and amount of it, and accordingly notify the nearest authority and NGO for the cleaning of it via email.
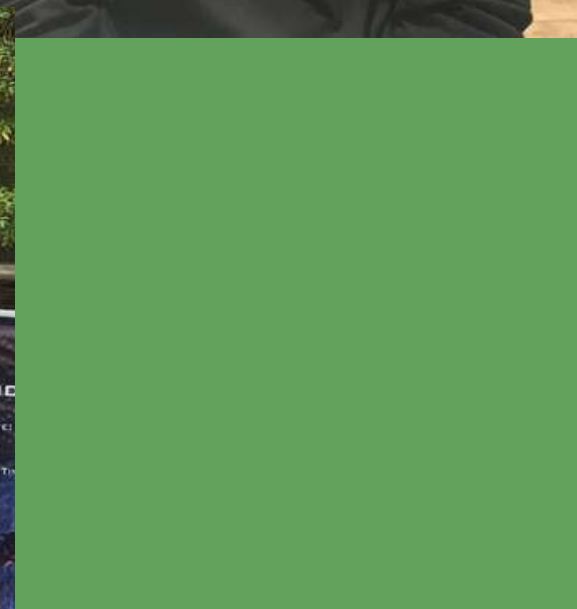

Smart india hackathon winner(2020)

Winner of "Smart India Hackathon" organized by AICTE for the problem statement "cyber crime prevention" with teammates Nikhil kumar gautam, Parth garasiya, Sahil nare and Yukta shah. we made a chrome extension which will automatically remove harmful comments from the social media platforms like facebook and youtube from the frontend of user and automatically report it to the authority based on the severity of comment, also it will remove obscene images and videos as well from user feed, we also made an android keyboard, which can automatically detect harmful comment and will notify user before sending it, so that they can think before sending it.

Version-beta 4.0 hackathon (2020)

4th rank in version-beta 4.0 hackathon organized by MANIT, Bhopal with teammates nikhil and Sahil Nare, for the problem statement in healthcare track, in which we made a web platform on which patient can connect with doctor, we also made a feature of initial diagnosis and prediction of disease based on symptoms and also added the feature of covid prediction through coughing.

HackChennai hackathon (2020)

4th rank in Hackchennai hackathon organized by SRM university, Chennai for the problem statement in cybercrime prevention track.

Yukta shah

Sahil Nare

Nikhil kumar gautam

Meet soni

Hardik Upadhyay
